Julio Salcedo: Selected Bibliography

“Economies in Post-Packaging”

Spitzer School of Architecture Lecture – February 26, 2015

About:

Julio Salcedo, born in Madrid, earned his BA in architecture and sculpture from Rice University and his MArch from Harvard. He is an Associate Professor of Architecture at The City College of New York and the principal of Scalar Architecture—an award-winning design firm based in New York City. Professor Salcedo has taught at Harvard, the University of Pennsylvania, Syracuse, and Cornell. His work has been exhibited at the Farnsworth Museum and has been widely published.

He is a registered architect in the EU and the US and has won major design awards such as the Architectural League Prize and the European Prize. Prior to founding Scalar Architecture, Salcedo worked for some of the most recognized firms in the field such as Machado Silvetti, SOM, the sustainability leader Cook and Fox, and Pritzker Prize winner Rafael Moneo. As the term indicates, Salcedo's practice—Scalar Architecture—operates at a variety of scales collaborating with key allied experts. The fruits of these collaborations are all-embracing projects that garner accolades for their transformative solutions such as its recently completed master plan for Hamar, Norway.
