Feniosky Peña-Mora
Selected Bibliography

“Design and Construction Excellence—Guiding Principles”
Thursday, September 15, 2016

About:

Dr. Feniosky Peña-Mora is the Commissioner of the New York City Department of Design and Construction (DDC). Peña-Mora is a leading engineer with vast experience managing infrastructure and construction projects in New York, the United States, and across the globe. He is currently the Edwin Howard Armstrong Professor of Civil Engineering and Engineering Mechanics, professor of earth and environmental engineering, and professor of computer science at Columbia University’s Fu Foundation School of Engineering and Applied Science (SEAS), where he has taught since 2009. Peña-Mora is also the founding partner of Peña-Alcántara Consultants, Inc., a firm specializing in the use of information technology and construction management techniques in infrastructure projects.

Peña-Mora’s research include developing information technology support for collaboration in preparedness, response, and recovery during disasters such as the 9-11 terrorist attack and Hurricane Katrina.
