About:

Carl Fredrik Svenstedt holds degrees from Harvard University and the Yale School of Architecture, and founded his Paris office in 2000. Carl Fredrik Svenstedt Architects experiment with process, habitat typology and construction techniques.

Svenstedt is currently an Associate Professor at the Lille School of Architecture, after having taught for many years at the Ecole Spéciale d’Architecture in Paris. He also is a recipient of the International Stone Architecture Award, the Architectural Review’s Emerging Architecture Award, the WAN House of the Year Award, and the French Lauriers Prize for Timber Construction.

Articles (2000-2017):

Articles listed above are available in the CCNY Architecture Library except where noted.
